Dear parent / guardian,

This week we are supporting Varna Community Primary School, educating children about how to stay safe while using the internet. We will be in school all week, working with the children and the teachers.

On Thursday 06th June we will be inviting parents to come to a free session about internet safety to raise awareness for parents about the dangers of the internet and how to protect children. This will be a presentation and an opportunity to ask questions. The session will be held at the school starting at 1:30pm and will finish in time for you to collect your children.

I have run this session in many schools, and parents always find it insightful and interesting. I believe all parents should attend sessions like this as the use of internet by young people is growing, and parents need to keep up with this ever-increasing use.

If you are worried about the privacy settings on the devices that our children use, or you are unsure if they are set correctly, you can bring your devices to this session, and we can check the privacy settings together.

I hope to see as many of you as possible at this free input.

Your Sincerely,

Shane O'Neill – Chief Executive
